SUMMARY

I am a creative and innovative individual, **proficient in both Graphic Design and Web Development**. I excel at crafting visually captivating designs and user interfaces, seamlessly merging artistic flair with technical expertise to deliver engaging digital experiences that consistently exceed expectations.

SKILLS

Technical Skills

- Java
- React Js
- Bootstrap
- JavaScript
- HTML
- CSS

Graphic Design Skills

- Photoshop
- Figma
- Illustrator
- After Effects
- Premiere Pro

WORK EXPERIENCE

GRAPHIC DESIGNER & VIDEO EDITOR

Branzoid Digital Marketing — January 2024 to Present

- Design social media posters and flyers
- Edit reels and short videos for social media
- Create and edit videos for various projects

CERTIFICATION

I am a certified **Java Full Stack Developer**, having completed my training in **Green's Technology**.

PROJECTS

➤ Rent Cars website using React JS

I developed a Rent Cars landing page using React.js and Bootstrap, featuring Framer Motion animations. Implemented a dynamic cards section to showcase available cars, ensuring an engaging user experience.

Link : <https://rent-cars-01.netlify.app/>

➤ Food Ecommerce website

I have created a simple food webpage with a header, navigation, a menu section with food items, and a footer. The CSS file provides basic styling, while the JavaScript file adds simple interactivity.
